

mission is a signal to little girls who dream. Space is there for them, too. And the next time humankind endeavors to take another joint leap, it could well be a woman to make it.

**NAIVETE OR CRASS PARTISAN, POLITICAL ADVANTAGE THROUGH SCANDALOUS FUND-RAISING?**

The SPEAKER pro tempore. Under the Speaker's announced policy of January 19, 1999, the gentleman from Arizona (Mr. HAYWORTH) is recognized during morning hour debates for 5 minutes.

Mr. HAYWORTH. Mr. Speaker, my colleague from Maryland spoke eloquently of the dreams of all Americans, and it is with a sense of profound anxiety that I come to the floor today to talk about those elements in our world that could defer those dreams.

The lead story, Mr. Speaker, in today's Washington Times reads as follows: "China Tests New Long Range Missile." Bill Gertz, the byline, he writes and I quote, "China successfully test-fired its newest long-range missile yesterday amid heightened tensions with Taiwan over pro-independence remarks by the island's President. The CIA believes the DF-31 test launched from a base in central China will be the first new Chinese intercontinental ballistic missile to incorporate stolen U.S. warhead design and missile technology, according to U.S. officials."

Mr. Speaker, when I read those words this morning, I could not help but reflect on the revelations that have rocked our Nation's capital and our entire country in the past several months. The fund-raising scandals, the apparent absence of concern at our Nation's nuclear laboratories, the wholesale theft of our nuclear secrets and the apparent cooperation of some in the private sector, and some in alleged government service to make it so.

Mr. Speaker, what perverse pride can anyone derive from these revelations? Is there actually pride on the part of the Clinton-Gore gang and their fundraisers this morning? Is there actually pride in the heart of Bernard Schwartz, the leading giver to the Democratic National Committee, whose firm, Loral, gave technology to the Communist Chinese? C. Michael Armstrong, the one-time CEO of Hughes, another company that gave technology to the Communist Chinese, can he feel pride at these revelations this morning?

Is our national security advisor, Sandy Berger, who sat on this information and apparently withheld it from the highest levels of government, does he feel pride this morning that our Nation is at risk?

How proud former Energy Secretary Hazel O'Leary must be this morning, with her socialist utopian vision of sharing our nuclear technology with those who oppose us in the world. And finally and sadly, how proud the President and Vice President of the United States must be.

Mr. Speaker, our constitutional republic has survived scores of scoundrels and scalawags, but to have those at the highest level of government speak of a strategic partnership with Communist China and then have it revealed in the fullness of time just what that strategic partnership meant, crass partisan, political advantage through scandalous fund-raising that has led us to this sorry state of affairs. If it is not by design then at least by naivete, and that leads us to another item in this morning's paper.

William F. Buckley writes in his column and I quote, "With reference to North Korea, specifically American intelligence has said that as things are now going the North Koreans plan to test the Taepodong II, an advanced version of the T-1 missile that rocked the world when last August it soared right over the island of Japan. T-2 is designed to do better than T-1, and better means that it could land a nuclear payload in Alaska or in Hawaii."

I recall the words and the intent of this administration by former Defense Secretary William Perry who lectured new Members of Congress on the necessity of giving, giving nuclear reactors to the outlaw nation, that is North Korea, and worse it has been reported in our press that the State Department kept from Congress information that the core of one of those reactors is now missing.

Mr. Speaker, when will we awaken to the threat that has been created by naivete or crass political advantage that some have sought in direct contravention and dereliction of the oath of office which we all take as constitutional officials to provide for the common defense, to defend the people and the Constitution of the United States?

Mr. Speaker, when will the partisan press awaken to these revelations?

**COOPERATION BETWEEN THE UNITED STATES AND INDIA REGARDING ENERGY ISSUES**

The SPEAKER pro tempore. Under the Speaker's announced policy of January 19, 1999, the gentleman from New Jersey (Mr. PALLONE) is recognized during morning hour debates for 5 minutes.

Mr. PALLONE. Mr. Speaker, I wanted to take the opportunity this morning to comment on the fact that Secretary of Energy, Bill Richardson, recently announced at the Energy Department that he will be visiting India this fall after the parliamentary elections that are supposed to take place next month, and basically indicated very strongly that the purpose of his visit is to encourage even more cooperation between the United States and India with regard to energy issues.

Yesterday, Mr. Speaker, last night actually on the floor, we initially had a debate on the Burton amendment, which was seeking to cut development assistance to India, and wisely the gentleman from Indiana (Mr. BURTON) de-

cided at the last minute to withdraw his amendment because the votes fortunately were not there; but during that debate many of us who opposed the Burton amendment pointed to increased trade and opportunities between the United States and India in various areas, and the support of the U.S. business community for more investment and trade with India.

I have to say that as Secretary Richardson and many of the Clinton Cabinet members have really taken the lead the last few years in trying to promote more opportunities for cooperation in various areas between the United States and India, some of us remember when Ron Brown, who when he was the Commerce Secretary, went to India a few times and did a trade mission to India. After that, Secretary Daley took a mission to India to talk about the opportunities for trade and investment, and certainly Bill Richardson, when he was the U.N. ambassador and on other occasions, was there in India trying to promote more opportunities between our two countries.

Secretary Shalala did the same thing when she made a trip and talked about health issues. So I think that it is particularly opportune that after the parliamentary elections, which are likely to set a new course for India not only in terms of its diplomacy in politics but also in terms of its economic policy, would be followed by a trip to India by Bill Richardson this fall.

My understanding is that the Secretary plans to visit New Delhi to expand energy cooperation. During his visit, he will be discussing ways of reducing emission from thermal power plants through better technology and also explore possibilities for cooperation between the two countries in solar energy and related technologies.

So it is renewable resources, in particular, something that I am very concerned about and I think is very important for the future. We know that in the northeastern part of the United States recently we had blackouts. We know how important it is to try and use renewable resources and to find ways not only in developing countries like India but also in the United States, in developed countries, to try to conserve and find new ways of dealing with the scarce energy resources.

My understanding is that the Energy Secretary would also visit China for a similar exercise and discuss with Beijing ways to reduce pollution from thermal power generating units.

One other thing that happened relating to the Energy Department, again announced by the Secretary, is that because of his responsibility not only for peaceful uses of energy but also for America's nuclear weapons laboratories, Richardson announced that his senior advisor for national security, Joan Rohlfing, would work at the U.S. embassy in New Delhi to deal with non-proliferation issues. Essentially, Ms. Rohlfing's position is effective from September 1 for a specific period of

about 6 months, and she obviously will be dealing with the whole issue of non-proliferation, ways of trying to deal with the fact that India is now a nuclear power; and we certainly recognize the fact that India is a nuclear power, but obviously we need to have better cooperation between the United States and India with regard to the nuclear issue in terms of security as well, and so I would encourage that.

I am very pleased to see that Secretary Richardson is taking this initiative both with regard to the peaceful uses of energy as well as on the nuclear power issue and what might happen in terms of our national security interests. I think this is a strong indication of further U.S. India cooperation in an area that is very crucial to all of us, and that is our energy resources.

#### RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess until 10 a.m.

Accordingly (at 9 o'clock and 45 minutes a.m.), the House stood in recess until 10 a.m.

□ 1000

#### AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mrs. WILSON) at 10 a.m.

#### PRAYER

The Reverend Dr. Donald Carter, Pastor, Baptist Temple of Alamance County, Burlington, North Carolina, offered the following prayer:

May we pray.

Heavenly Father, thank You for our forefathers who carved out of the wilderness a great Nation, a Nation that has enjoyed the blessings of Almighty God. We acknowledge Your protective and guiding hand upon our Nation during these 223 years.

I request that You give the men and women who are servants of our trust and who represent us understanding of the problems and needs of our country. Give them wisdom to address them. We have sinned as a people and as a Nation. Forgive us of our sins. May these who represent us do what is right, not what is popular, as John Adams said.

May that being who is supreme over all, the Patron of Order, the Fountain of Justice and the Protector of all ages of the world of virtuous liberty, continue His blessings upon this, our Nation.

In Jesus' name I pray.

#### THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

#### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Ohio (Mr. TRAFICANT) come forward and lead the House in the Pledge of Allegiance.

Mr. TRAFICANT led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

#### WELCOME TO REVEREND DR. DONALD CARTER, BAPTIST TEMPLE OF ALAMANCE COUNTY, BURLINGTON, NORTH CAROLINA

(Mr. COBLE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COBLE. Madam Speaker, the gentleman who opened the House today, Reverend Carter, I came to know him, his wife, Betty, his son David, and the Baptist Temple Church family when I initially was a candidate for Congress in 1984.

Don and his church family and the entire Alamance County Ministerial Association serve their county well, and we are honored to have Don to open our service today.

The bad news is I no longer represent him. As a result of redistricting, Alamance County was assigned to another Congressional District, and they are now ably represented by the gentleman to whom I yield.

I am pleased to yield, Madam Speaker, to the gentleman from North Carolina (Mr. BURR).

Mr. BURR of North Carolina. Madam Speaker, I thank the gentleman for yielding.

Madam Speaker, I also welcome Pastor Carter and his wife Betty. In fact, in every community, we find families that we represent. Pastor Carter represents a family in Burlington of several hundred of his parishioners that every week turn to him for their spiritual guidance and for the leadership that they need, both personally and professionally. Dr. Carter, we are glad to have you today and your lovely wife.

I also pledge to my dear colleague, the gentleman from North Carolina (Mr. COBLE) that I will carry on the good tradition that he has established, not only with the Baptist Temple, but with Alamance County.

#### TAX CUTS TO BENEFIT ALL TAXPAYERS

(Mr. ROGAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ROGAN. Madam Speaker, we Republicans across the country campaigned last year on the issue of tax relief for working families. We said that Americans are overtaxed, and America agreed. That is why last year more Americans voted for Republicans than

voted Democrat in the Congressional elections.

By now it is no surprise that Republicans actually meant what they said. The House of Representatives under the Republicans have passed tax relief for working families. This is upsetting to many on the left, still locked in the 1960s mentality that demonizes those that save, invest, create jobs, and pay the lion's share of taxes.

Our relief package is fair and balanced. It puts aside \$2 for Social Security and Medicare for every \$1 in tax relief for working families.

It does something foreign to the left that controlled this chamber for 40 years before us. It pays down the national debt by some \$1 trillion, and it cuts taxes so that all taxpaying families will benefit.

The Republican Party is the party of tax relief for working families.

#### ADDRESSING THE PROBLEMS OF HEPATITIS C

(Mr. WEINER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WEINER. Madam Speaker, the Queens Courier, a distinguished local newspaper in New York, recently concluded in an exclusive study that they did in this edition that hepatitis C has reached near epidemic proportions in New York City and, in fact, in the Nation as a whole.

The Queens Courier study actually does a great national service to bring our attention to what is an often and unrecognized epidemic: Nearly 4 million Americans have been affected by hepatitis C. As a result, there are almost 10,000 deaths every year in this country, and it causes over \$600 million in medical bills in our country. This is indeed an epidemic, albeit a quiet one. This is particularly poignant to New York City, where there are so many immigrant communities.

Now is the time for not only authorities in New York State, but the Center for Disease Control here in Washington, to finally recognize that hepatitis C has reached a crisis proportion. The Queens Courier has done a very important job by calling this to our attention. Now we in Congress have to take up this call and address the problems of hepatitis C.

#### NETWORKS NOT COVERING GREENSPAN STATEMENTS PROPERLY

(Mr. HEFLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HEFLEY. Madam Speaker, today is the first installment of our Media Watch. Media Watch is an effort to cover the stories the networks will not cover, the stories which are distorted by liberals, and the stories which are buried in the back pages for political reasons.
